-

Current Mission Statement

The mission of The Academy is to serve as the research home for health behavior scholars whose primary commitment is to excellence in research and the application of research to practice to improve the public's health.

Goals:

- Fostering the development and dissemination of knowledge through sponsorship of scientific meetings, symposia, and publications
- Recognizing outstanding achievements in the area of health behavior research
- Encouraging collaborative research efforts
- Influencing health policy and allocation of resources within agencies, private foundations, and universities
- Foster the research career of young scholars
